COURSE CODE: CS444

INSTRUCTOR: Dr. Zoya

TOTAL MARKS: 50

Instructions

- You are free to consult each other for verbal help. However, copying or sharing the soft/hard copy with each other will not only result in the cancellation of the current assignment, but it may also impact your grade in all the future assignments and exams as well.
- List your collaborators on the last page of your assignment. Collaborators are any people you discussed this assignment with. This is an individual assignment, so be aware of the course's collaboration policy.

Tasks:

Propose solutions by synthesizing concepts from *Introduction to Information Retrieval* by Christopher D. Manning et al. (CLO-3)

Q1. Exercise No. 8.8 (17 marks)

In addition to parts of the questions given in the book, also include the following. The ideal ordering would be the monotonically decreasing sort of the relevance judgments provided by the judge.

- a) What is the DCG of each system?
- b) What is the NDCG of each system and which one is better?
- c) Why search engines prefer NDCG over MAP?

Q2. Exercise No. 8.9 (24 marks)

Q3. Exercise No. 8.10 (9 marks)
